

TABELA DE COOKIES DA OUTBRAIN

Esta tabela de cookies fornece informações claras e completas sobre os cookies e outras tecnologias similares usadas por nós.

Podemos instalar cookies ou arquivos similares como pixel tags ou web beacons nos aparelhos que você usa para interagir com a Outbrain, por fins de segurança, para facilitar a navegação no site e para personalizar sua experiência ao interagir com a Outbrain como Visitante do Site, Usuário ou Parceiro Comercial. Cookies nos permitem coletar informações técnicas e relacionadas à navegação, como tipo de navegador, tempo gasto por você na interação com a Outbrain e páginas visitadas. Leia a Política de Privacidade para compreender melhor como usamos os dados.

Usuários		+
Name	Purpose	Expiration
obuid	Holds the anonymous user's ID. Used for tracking user actions, such as clicks on the recommendations	3 months
aid	Holds the advertising ID of the user in mobile devices. Used for tracking user actions, such as clicks on the recommendations	90 days
_ofcap_DOC1	Used for Frequency capping	7 days
recs-{}	Stores the documents we're recommending so that we won't show you the same recommendation on the same	1 minute or refresh
ref-{}	Stores refering doc info - written by redirect on click	1 minute
spuid	Stores the logged in uuid - for logged in users only	12 months
spv	Signals that this user has visited Sphere before (and is considered a sphere user) - For anonymous users	12 months
sprm	Sphere's "remember-me" cookie - for logged in users only	12 months
SPHERE_JSESSIONID	Session identifier	Session

Visitantes do Site		+
Name	Purpose	Expiration
obca_vid	stores a uuid for the visitor	50 years
obca_sid	stores a uuid for the session	30 minutes
obca_data	stores the visitors source based on referral data and UTMs	50 years

obwwwroute	stickiness for servers so user gets served only from one server	50 years
_vwo_uuid_v2	This cookie name is associated with the product Visual Website Optimiser, by USA based Wingify. The tool helps site owners measure the performance of different versions of web pages. This cookie ensures a visitor always sees the same version of a page and is used to track behaviour to measure the performance of different page versions.	a year
_ceg.u	This cookie name is associated with software provided by Crazy Egg Inc., a USA based company providing web analytics that tracks how visitors interact with pages on a site.	3 months
_gat_UA-71823982-1	This is a pattern type cookie set by Google Analytics, where the pattern element on the name contains the unique identity number of the account or website it relates to. It appears to be a variation of the _gat cookie which is used to limit the amount of data recorded by Google on high traffic volume websites.	a few seconds
_ga	This cookie name is associated with Google Universal Analytics - which is a significant update to Google's more commonly used analytics service. This cookie is used to distinguish unique users by assigning a randomly generated number as a client identifier. It is included in each page request in a site and used to calculate visitor, session and campaign data for the sites analytics reports. By default it is set to expire after 2 years, although this is customisable by website owners.	2 years
_gid	This cookie name is associated with Google Universal Analytics. This appears to be a new cookie and as of Spring 2017 no information is available from Google. It appears to store and update a unique value for each page visited.	a day
ubvt	This cookie name is associated with software from Canadian company Unbounce. The service allows site owners to test the effectiveness of different versions of web pages, and ensure that visitors consistently see the expected version of a page.	3 days
_ceg.s	This cookie name is associated with software provided by Crazy Egg Inc., a USA based company providing web analytics that tracks how visitors interact with pages on a site.	3 months
_vis_opt_s	This cookie name is associated with the product Visual Website Optimiser, by USA based Wingify. The tool helps site owners measure the performance of different versions of web pages. This cookie distinguishes between new and returning visitors.	3 months
__utmt	This cookie is set by Google Analytics. According to their documentation it is used to throttle the request rate for the service - limiting the collection of data on high traffic sites. It expires after 10 minutes	a few seconds
_gat_UA-294746-7	This is a pattern type cookie set by Google Analytics, where the pattern element on the name contains the unique identity number of the account or website it relates to. It appears to be a variation of the _gat cookie which is used to limit the amount of data recorded by Google on high traffic volume websites.	a few seconds
__utmz	This is one of the four main cookies set by the Google Analytics service which	6 months

	enables website owners to track visitor behaviour measure of site performance. This cookie identifies the source of traffic to the site - so Google Analytics can tell site owners where visitors came from when arriving on the site. The cookie has a life span of 6 months and is updated every time data is sent to Google Analytics.	
__utmb	This is one of the four main cookies set by the Google Analytics service which enables website owners to track visitor behaviour and measure site performance. This cookie determines new sessions and visits and expires after 30 minutes. The cookie is updated every time data is sent to Google Analytics. Any activity by a user within the 30 minute life span will count as a single visit, even if the user leaves and then returns to the site. A return after 30 minutes will count as a new visit, but a returning visitor.	21 minutes
_ceg.s	This cookie name is associated with software provided by Crazy Egg Inc., a USA based company providing web analytics that tracks how visitors interact with pages on a site.	3 months
_hjIncludedInSample	This cookie is associated with web analytics functionality and services from Hot Jar, a Malta based company. It uniquely identifies a visitor during a single browser session and indicates they are included in an audience sample.	Session
__utma	This is one of the four main cookies set by the Google Analytics service which enables website owners to track visitor behaviour and measure site performance. This cookie lasts for 2 years by default and distinguishes between users and sessions. It is used to calculate new and returning visitor statistics. The cookie is updated every time data is sent to Google Analytics. The lifespan of the cookie can be customised by website owners.	2 years
km_lv	Cookie set by Kissmetrics analytics service. Used to provide site owners with information about how visitors use the site.	5 years
km_uq	Cookie set by Kissmetrics analytics service. Used to provide site owners with information about how visitors use the site.	5 years
_pk_ses*	This cookie name is associated with the Piwik open source web analytics platform. It is used to help website owners track visitor behaviour and measure site performance. It is a pattern type cookie, where the prefix _pk_ses is followed by a short series of numbers and letters, which is believed to be a reference code for the domain setting the cookie.	24 minutes
_pk_id*	This cookie name is associated with the Piwik open source web analytics platform. It is used to help website owners track visitor behaviour and measure site performance. It is a pattern type cookie, where the prefix _pk_id is followed by a short series of numbers and letters, which is believed to be a reference code for the domain setting the cookie.	a year
km_ai	Cookie set by Kissmetrics analytics service. Used to provide site owners with information about how visitors use the site.	5 years
__utmc	This is one of the four main cookies set by the Google Analytics service which enables website owners to track visitor behaviour and measure site performance. It is not used in most sites but is set to enable interoperability with the older version	Session

	<p>of Google Analytics code known as Urchin. In this older versions this was used in combination with the __utmb cookie to identify new sessions/visits for returning visitors.</p> <p>When used by Google Analytics this is always a Session cookie which is destroyed when the user closes their browser. Where it is seen as a Persistent cookie it is therefore likely to be a different technology setting the cookie.</p>	
_ceg.u	This cookie name is associated with software provided by Crazy Egg Inc., a USA based company providing web analytics that tracks how visitors interact with pages on a site.	3 months
_vis_opt_test_cookie	This cookie name is associated with the product Visual Website Optimiser, by USA based Wingify. The tool helps site owners measure the performance of different versions of web pages. This cookie tests if the browser is set to allow cookies.	Session
